

RESEARCH ACTIVITIES AT IAE

IAE Montpellier research activities are developed within MRM research laboratory ("Montpellier Research in Management"). MRM research laboratory brings together over 139 academic faculty members and 90 PhD students and is one of the most important research groups in the field of management in France. Research activities at IAE are performed under the supervision of Prof. Régis Meissonier who also coordinates the Master's degree of Management studies and research, 2nd year.

AREAS OF RESEARCH

MRM includes seven academic disciplines: Accounting, Entrepreneurship, Finance, Human Resources Management, Marketing, Strategy and Information Systems.

MRM develops research on two cross-sectional themes:

- Innovation, Stakeholders, Knowledge and Markets
- Responsible Management, Institutions and Territories

ASSOCIATIONS AT IAE

IAE students association The BDE office purpose is to organize, socialize, and coordinate IAE students community. It is in charge of planning, promoting and implementing events. IAE students are encouraged to engage in extra-curricular activities such as humanitarian and social activities as well as sports and other festivities.

Alumni IAE Montpellier association is a network that gathers all the former and current IAE students. The association sets up a platform for members in order to meet and exchange information in a friendly and professional way. Events are organized between different generations of students and also according to sectors and hobbies.

IAE Startup Lab is a student association which was founded in October 2015. The aim is to promote access to employment and the development of new business venturing among the University of Montpellier's students.

IAE MONTPELLIER

Located in the South of France, IAE Montpellier School of Management is part of Montpellier University and is accredited by the French Ministry of Higher Education and Research. IAE Montpellier awards state degrees at undergraduate and postgraduate levels in the fields of business and management with a focus on information technology.

It belongs to a network of 35 IAEs throughout France and has more than fifty years of experience in management and business education. It was founded in 1956 and is one of the oldest IAE schools of Management in the French public education system. Double skill training management contributed to its original position in line with the IAE network policy.

KEY STRENGTHS

- A pedagogy focused on double skill training
- State degrees at undergraduate and postgraduate levels
- A high level and extensive training offer
- An agreement with Montpellier Business School
- Strong focus on research
- International Exposure
- Privileged partnerships with professionals
- Awarded with EPAS and Qualicert SGS accreditations

OUR MISSION

Our core mission is to train individuals to acquire a double competence or to make a career change, adding an advanced training in management and business to their initial degree. The variety of students' profiles - mostly engineers and science students - has always been a distinctive feature of IAE.

EPAS ACCREDITATION

IAE Montpellier has been awarded EPAS accreditation by EFMD (the European Foundation for Management Development) for the second time. EPAS aims to evaluate the quality of any business and/or management programme that has an international perspective and, where of an appropriately high quality, to accredit it.

IAE Montpellier stands out for its focus on double skill training in management.

Such accreditation confirms the highest academic level of the programme, its compliance with the international standards of management training and its relevance from the point of view of employers and labor market.

INTERNATIONAL RELATIONS

IAE Montpellier welcomes students from all around the world and offers more than 70 destinations to its future international managers with a significant development of partnerships in Asia.

International stakes are obvious: recognition and value of diplomas and research studies in management, attractiveness and professional integration for our students.

Come and discover the master of International Business Engineering (EPAS accredited), the master of Marketing Intelligence and International Sales Strategy, the MBA Digital Business & Innovation and the BIMB (Bachelor of International Management and Business), international oriented degrees.

The IAE international relations office welcomes and advises you about scholarships, accommodation, mobility...

DOUBLE DEGREES

Since 2012, IAE Montpellier has increased its internationalization with the creation of double degrees with Universities in Germany, Thailand, Azerbaijan and Russia.

CAPACITY BUILDING PROGRAMMES

- **GECKO** project aims to improve engineer degrees in 3 countries: Thailand, Indonesia, Philippines through the exchange of good practices and a better regional cooperation. The general goal of the project is to improve students employability.

- **IN2IT** involves 14 partners from Europe and Israel, to improve students competencies and employability through the use of international virtual courses.
