## Teaching orientation

The program closely integrates the acquisition of theoretical ideas and strategic skills by developing the students' ability to think and apply acquired theory in real situations at a graduate level.

The courses are taught entirely in English; they are intended for English-speaking students (foreign or French) who wish to widen their fundamental and International Business Management experience in a context of multicultural training, enriched by the cultural diversity of the students in the program.

The courses are taught by a team of IAE teachers-researchers as well as guest lecturers from multinational corporations / Universities.

The program consists of two semesters of courses at IAE, based on lectures and small group work sessions. Some courses will be in the form of work seminars. Following this, the second semester includes also an internship and the writing of a thesis.
